Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 June 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

Rejection of claim 5 under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention is withdrawn since the claim is amended to "candidate medicament."

Claims 3-5, and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The amended base claim still lacks a contacting step and a step correlating the detection step to the purpose in preamble of the claims. Note the attached claim construction of US Pat. 6,558,912 as reference.

Any other rejection here is withdrawn in view of amendment or due to persuasive argument.

NEW GROUND OF REJECTION AND OBJECTION

Claim Objections

Claims 4-6, and 7 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The claims depend on the base claim which limits the scope to "binding" of NADE and an apoptosis related protein. However, the claims broaden the scope to "interaction" instead of further limiting the base claim.

Claim Rejections - 35 USC § 112

Claims 4, 5, and 7 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims recite "interaction" but it is not clear what the metes and bounds are for the limitation.

Claims 3-5, and 7 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims are interpreted as drawn to a method using NADE and a genus of protein called "an apoptosis related protein which binds to NADE". The Office interprets NADE is limited to the 124 amino acids protein disclosed as Bex3 by Brown et al (1999, Human Molecular Genetics vol. 8, pages 611-619) according to the definition at 3rd paragraph at page 5 of the specification. However, the specification at page 5, 4th paragraph defines "an apoptosis related protein which binds to NADE" to include something "which includes unknown" (see lines 2-3 of 4th paragraph at page 5) applicant did not possess at the time the instant application was filed. This rejection would be obviated if the scope is limited to the species listed in the now cancelled original claim 2 as stated in the previous Office action under the heading ***Allowable Subject Matter***.
